Dear Stakeholder

RE: INVITATION TO THE BRIEFING MEETING ON THE WATER ASSESSMENT REPORT IN CRADLE OF HUMANKIND WORLD HERITAGE SITE TO BE HELD ON 10 DECEMBER 2011

You are cordially invited to a briefing session regarding the recently completed Water Assessment Report regarding the surface water and groundwater resource environments in the Cradle of Humankind World Heritage Site prepared by the Council for Scientific and Industrial Research (CSIR) on behalf of the Cradle of Humankind World Heritage Site Management Authority (COH WHS MA). The briefing session is scheduled as follows:

VENUE: Maropeng Visitor Centre
DATE: 10 December 2011
TIME 12am until 13:30am

The purpose of this briefing session is to inform and update land owners in the areas currently impacted on by Acid Mine Drainage (AMD) about the findings of the Water Assessment Report, and to provide stakeholders with feedback on the water situation in the area, primarily the issue of AMD including safety guidelines related to contaminated water, as well as information on the COH WHS MA's role in addressing the issue as well as an opportunity for questions and answers.

Please find below the agenda for the information meetings:

Agenda:

- 1. Presentation of the findings of the Water Assessment Report**
- 2. Discussion on the impact of Acid Mine Drainage (AMD) and other water pollutants in the COH WHS**
- 3. Safety guidelines when encountering contaminated water**
- 4. Questions and answers**

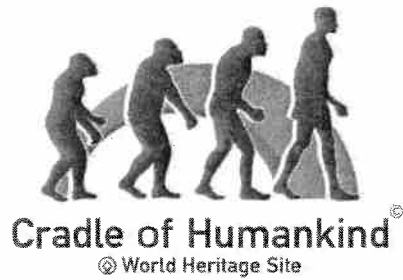

Please contact Mr. Thulani Mbonambi, tel. 011-355 1208 or email thulani.mbonambi@gauteng.gov.za if you need further information.

Yours faithfully,

Dawn Robertson
Acting Chief Executive Officer
Cradle of Humankind World Heritage Site and Dinokeng Projects

Date: *29/1/2011*
